

DeZolve 10

❖ For use on laminates
and parquet surfaces

Adhesive Remover

Description

DeZolve 10 is a fast-acting water-based formulation designed to strip away adhesive residue from laminate and parquet surfaces.

Uses

DeZolve 10 is used on laminate and parquet surfaces to remove excess or residue adhesive after installation.

Application

Spray DeZolve 10 liberally over desired area. Allow solution to penetrate for 10 to 15 minutes. Using mop or squeegee, remove solution from floor. For excessive adhesive, a second treatment may be required. Clean floor with Jeric Parquet, Laminate and Hardwood Cleaner.

Note

A test area should be done prior to ensure satisfied results of surface.
