

## ***High Traffic Carpet Cleaner***

- ❖ Ready-to-use
- ❖ Eliminates odours
- ❖ For use on carpets and upholstery

## **Carpet and Upholstery Cleaner**

<b>Description</b>	R&D High Traffic Carpet Cleaner is a ready-to-use non-toxic, biodegradable formula that cleans carpets in high traffic areas while eliminating odours including pet markings.
<b>Uses</b>	For use on carpets and upholstery.
<b>Application</b>	For heavy traffic areas, clean carpets in three foot square sections. After spraying evenly with Carpet Cleaner, use a brush or clean, damp sponge to rub in a circular manner on the treated area for 30 seconds. Remove foam and repeat as necessary. For spot cleaning, use a clean cloth to pick up any excess spill. Spray the spot where the spill occurred. Wait five minutes and then clean with a damp sponge or cloth. For ground-in stains, use a brush to loosen dirt. For odours, spray and saturate to the base of the carpet. Cover the area with a damp towel or several hours or overnight until odour is gone. Clean with a damp sponge or cloth. Repeat applications may be necessary.
